Comprehension alert: You are about to purchase a product that is not simple and may be difficult to understand.

Date of Production 24/02/2023

What is this product?

Type

This product is a UCITS sub-fund of Brown Advisory Funds Plc. The Fund's assets are held through its Depository, which is Brown Brothers Harriman Trustee Services (Ireland) Limited.

Investment Objective

The objective of the Fund is to achieve capital appreciation by investing primarily in global equities.

Investment Policy

Under normal circumstances, the Fund aims to achieve its investment objective by investing at least 80% of its net assets in global equity securities. The Fund also will, under normal market conditions: (1) invest at least 40% of its net assets outside the United States (including Emerging Market Countries) which may be reduced to 30% if market conditions are not favourable, and (2) hold securities of issuers located in at least three countries. The Fund determines whether a company is considered to be located outside the United States by considering whether: (i) it is organised under the laws of, or maintains its principal office in, a country located outside the United States; (ii) its securities are principally traded on trading markets in countries located outside the United States; (iii) it derives at least 50% of its total revenue or profits from either goods produced or services performed or sales made in countries located outside the United States; or (iv) it has at least 50% of its assets in countries located outside the United States. The Fund integrates socially responsible investment screens and risk-based analysis into the portfolio construction process.

The equity securities in which the Fund may invest include common stock, preferred stock, American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs) and the Fund may also invest in CIS (including, exchange traded funds (ETFs)) subject to the limits set out in the Prospectus. The equity securities in which the Fund may invest will be issued by mid- and large-capitalisation companies generally with market capitalizations above \$2 billion at the time of purchase that the Fund's Sub-Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favourable fundamental attributes.

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR).

In addition, the equity securities in which the Fund may invest will include the equity securities of companies that the Sub-Investment Manager believes are leaders within their industry or country as demonstrated by an ability to deliver high relative return on invested

capital over time. This typically can be attributable to, among other things, a strong competitive position and a defensible barrier to entry (such as high start-up costs or other obstacles that prevent competitors from easily entering an industry).

The Fund may invest in participatory notes ("P-Notes") in order to gain exposure to securities and markets in India which may not be efficiently accessed through direct investment. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising from Hedged Share Classes. In addition, the Fund may also invest in US treasury bills, fixed and/or floating rate US government securities, subject to the limits set out in the Prospectus.

Benchmark

The Fund uses the MSCI ACWI Net Total Return USD Index as a Comparator Benchmark to compare performance. The Fund is actively managed and is not constrained by any benchmark.

Dealing Frequency

Investors may redeem shares on demand on any day (except Saturday or Sunday) on which the New York Stock Exchange is open.

Distribution Policy

If the Fund generates distributable income on your shares, the Fund intends to distribute that income and will declare any dividend on or about 31 October and will pay any such dividend on or about 14 November each year.

For full investment policy details please refer to the Fund Supplement's Investment Objective and Policies section.

Intended Investor

The Fund is suitable for any investor (institutional and, unless prohibited by the rules of a particular jurisdiction, retail) seeking to achieve capital appreciation over the long term (i.e., greater than five (5) years). As the Fund invests primarily in equities, investors should consider an investment in the Fund as medium to high risk.

Term

This Fund is an umbrella type open-ended UCITS and this product is not subject to any fixed term. For full investment objectives and policy details, please refer to the Investment Objectives and Investment Policy in the Fund's Supplement to the Prospectus, which are available at <https://www.brownadvisory.com/intl/home>. The Fund's assets are held through its Depository, which is Brown Brothers Harriman Trustee Services (Ireland) Limited.

The NAV per share of the Fund will be published daily and made available on the internet at www.brownadvisory.com and will be updated following each calculation of NAV.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is "a medium" risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at <https://www.brownadvisory.com/intl/ucits-legal-document-library>

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		5 years	
Example Investment:		£10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	£1760	£1940
	Average return each year	-82.38%	-27.93%
Unfavourable	What you might get back after costs	£8750	£7560
	Average return each year	-12.45%	-5.44%
Moderate	What you might get back after costs	£11010	£17440
	Average return each year	10.07%	11.77%
Favourable	What you might get back after costs	£14860	£22150
	Average return each year	48.64%	17.24%

What happens if Brown Advisory is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

	If you exit after 1 year	If you exit after 5 years
Total costs	£127	£906
Annual cost impact (*)	1.3%	1.3% each year

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed that the product performs as shown in the moderate scenario and GBP 10 000 is invested.

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.0% before costs and 11.8% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Not Applicable	£0
Exit costs	1% - This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	£0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The ongoing charges figure is based on expenses for the year ending 31 October 2022. The figure may vary from year to year. It excludes portfolio transaction costs.	£80
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	£48
Incidental costs taken under specific conditions		
Performance fees	Not Applicable	N/A

How long should I hold it and can I take money out early?

Recommended holding period: 5 years. The fund has daily liquidity. The recommended holding period of the fund assumes the fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The fund is not intended for short term speculation purposes.

How can I complain?

As a Shareholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the management company promptly and effectively.

You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received.

Further information on the complaints policy relating to the Fund is available from LondonInstitutionalOperations@Brownadvisory.com.
